VENUE

Miami's Private Event Marketplace

Business Plan | March 2026

Georg Chimion & Frank

THE PROBLEM

Planning a private event in Miami is broken.

Peerspace (Market Leader)

2.6/5 stars (TrustPilot + Google). Terrible support.
Charges venues 20% + guests 12-18%.

Giggster

Film/photo focused, not events.
19% commission. 962 Miami listings but wrong audience.

Event Planners

Charge $2,000–$10,000
just to find a space. Weeks, not hours.

Google / Yelp

Hours of research. No filters for
event type, budget, or guest count.

THE MARKET (VERIFIED)

Miami is the #3 event market in North America.

COMPETITIVE LANDSCAPE

The leader is hated. The rest are niche or absent from Miami.

Platform	Commission	Miami Supply	Rating	Weakness
Peerspace	20% + 12-18%	200-400	**2.6/5**	Terrible support, refund issues
Giggster	19%	962	OK	Film/photo focused, not events
EventUp	Subscription	15,000+ global	OK	Generic, no local curation
Tagvenue	10-15%	16	OK	Tiny Miami presence
Splacer	15% + 5%	Limited	Good	Only 5 US cities
VENUE (us)	**10-15%**	**31 curated**	New	No brand yet

Our commission is the lowest in the market. Venues save 5–10% switching from Peerspace.

WHY WE WIN

Three moats. Not just features.

MOAT 1: Concierge Service

We don’t just list venues. We match you with 2–3 curated options, coordinate introductions, and follow up. Peerspace is a search engine. VENUE is a personal assistant. Service quality is the hardest thing to copy.

MOAT 2: Bilingual from Day 1

45% of Miami speaks Spanish at home. All content, ads, and emails in English + Spanish. No competitor does this. Peerspace would need 6+ months to build equivalent. This is a sustainable head start.

MOAT 3: Event-Type Guidance

Our wizard starts with “What’s the occasion?” — not “Where?” This reduces decision time from browsing 400 results to seeing 3 curated matches. We also show F&B minimums with per-person tax+tip breakdown. No competitor does either.

Plus: Lowest commission in market (10–15% vs. Peerspace 20%). Pure economic incentive for venues.

HOW IT WORKS

A lead generation machine.

01

Ads Drive Traffic

Google + Instagram ads target Miami event planners

02

Wizard Captures Lead

User picks event type, guests, budget, vibe

03

Georg Matches Venues

2–3 curated venues with pricing and amenities

04

Venue Pays Us

10–15% commission or $99/mo placement fee

Free for consumers. Always. Venues pay because we send them qualified leads.

THE MATH (INDUSTRY BENCHMARKS)

Real numbers. Not guesses.

PARTNERSHIP

I build it and run it.
You fund the growth.

GEORG — Operator

- Built entire product from scratch (44 pages)
- All development + maintenance
- Ad campaigns: create + optimize + report
- Venue outreach + relationship management
- Lead handling + concierge (15–20 hrs/week)
- Weekly performance reports to Frank

FRANK — Investor & Advisor

- Initial idea + market insight
- Funds all ad spend (scales with results)
- Covers operational costs ($7–$32/mo)
- PwC credibility for venue partnerships
- Investor-facing role if we raise
- 1–2 hours/month, no manual work

THE DEAL

Partners first. Formalize when there’s money to split.

Period	Monthly (ads + ops)	Cumulative
Month 1	$520	$520
Month 2	$1,020	$1,540
Month 3	$1,530	$3,070
Month 4–6	$2–$3K/mo	$9K–$12K
Month 7–12	$3–$5K/mo	$27K–$42K

The principle: Georg builds and runs it. Frank funds the growth. We formalize equity when we hit $1,000/month — by then we’ll both know what each person contributed. If it doesn’t work after 3 months, we walk away. Max loss = ~$3,000.

RISKS & KILL SWITCHES

Honest about what could go wrong.

Ads don’t convert	If $500 yields <10 leads: pivot to Instagram Ads. If all channels fail: shift to partnerships-first (direct outreach, $0 ads).
Venues don’t pay	Lead with free value (10+ free leads). Then propose $99/mo featured or 10–15% commission. If they decline: remove listing, move on.
Peerspace copies us	Our moats: bilingual content (6mo head start), venue relationships, concierge service. Even if features copied, switching cost is high.
Georg’s bandwidth	15–20 hrs/week committed. Weekly check-ins with Frank. If VENUE hits $1K/mo, it becomes primary

KILL SWITCH: If $1,500 spent yields <15 leads by end of Month 2, we pause and reassess together. Max loss = ~$3,000.

NEXT STEPS

Five things to decide together.

1. **Domain name**
   Pick the production URL (venuemiami.com?)
2. **Month 1 budget**
   Confirm $500–$1,000 to test
3. **Partnership terms**
   Build it, fund it, split it
4. **Ad accounts**
   Set up Google + Instagram Ads
5. **Launch date**
   Pick a week — we can be live in 7 days

The product is built.

The machine is ready.

We just need to turn it on.
