VENUE

Miami's Private Event Marketplace

Business Plan | March 2026

Georg Chimion & Frank

THE PROBLEM

Planning a private event in Miami is broken.

Peerspace (Market Leader)

2.6/5 stars. Terrible support.
Charges venues 20% + guests 18%.

Giggster

Film/photo focused, not events.
19% commission.

Event Planners

Charge $2,000–$10,000
just to find a space.

Google / Yelp

Hours of research. No filters for
event type, budget, or guest count.

THE MARKET (VERIFIED DATA)

Miami is the #3 event market in North America.

COMPETITIVE LANDSCAPE

The leader is hated. The rest are niche or absent from Miami.

Platform	Commission	Miami Inventory	Weakness
Peerspace	20% + 12-18%	200-400	2.6/5 rating, bad support
Giggster	19%	962	Film-focused, not events
EventUp	Subscription	15,000+ global	Generic, no local curation
Tagvenue	10-15%	16	Tiny Miami presence
VENUE (us)	**10-15%**	**31 (curated)**	**New, no brand yet**

Our commission is the lowest in the market. Venues save 5-10% switching from Peerspace.

HOW IT WORKS

A lead generation machine.

01

Ads Drive Traffic

Google + Instagram ads target Miami event planners

→

02

Wizard Captures Lead

User picks event type, guests, budget, vibe

→

03

We Match Venues

Real Miami spaces with pricing and amenities

→

04

Venue Pays Us

10-15% commission or $99/mo placement fee

Free for consumers. Always. Venues pay because we send them qualified leads.

PARTNERSHIP

I build it and run it.
You fund the growth.

GEORG — Operator

- Built the entire product from scratch
- All development + maintenance
- Ad campaigns: create + optimize
- Venue outreach + relationships
- Lead handling + concierge
- Weekly performance reports

FRANK — Investor + Advisor

- Initial idea + market insight
- Funds all ad spend (scales w/ results)
- Covers operational costs
- PwC credibility for partnerships
- Investor-facing role if we raise
- 1–2 hours/month, no manual work

THE DEAL

Partners first. Formalize when there's money to split.

Period	Monthly (ads + ops)	Cumulative
Month 1	$520	$520
Month 2	$1,020	$1,540
Month 3	$1,530	$3,070
Month 4–6	$2–$3K/mo	$9K–$12K
Month 7–12	$3–$5K/mo	$27K–$42K

The principle: We're partners. Georg builds and runs it. Frank funds the growth. We split profits fair. We formalize equity when we hit $1,000/month — by then we'll both know what each person contributed. If it doesn't work after 3 months, we walk away. Max loss = ~$3,000.

RISKS

Low downside. Capped risk.

Ads don't convert	$500 max loss in month 1. Test 3-4 campaigns, kill losers fast.
Venues don't pay	Prove value with free leads. Hard to say no after 10 free bookings.
Competition enters	First-mover + local touch. Our 10-15% beats Peerspace's 20%.
Legal concerns	Public info only. Remove any venue immediately on request.

NEXT STEPS

Five things to decide together.

1	**Domain name**	Pick the production URL
2	**Month 1 budget**	Confirm $500–$1,000 to test
3	**Partnership terms**	Build it, fund it, split it
4	**Ad accounts**	Set up Google + Instagram Ads
5	**Launch date**	Pick a week to go live

The product is built.
The machine is ready.

We just need to turn it on.
